Zaid Zaim's Bio

Zaid, 21 years old from Syria, came to Germany in 2013 due to the war in his country. Today, as an Alumni of ReDI School Digital integration (NGO supporting refugees learning quality tech skills) and Microsoft MVP for Mixed Reality, Zaid brings back to life with modern technology the Cultural Heritage of destroyed sites like the UNESCO city of Palmyra in Syria. He leads and engages with various technology communities around the world and evangelizes Mixed Reality. Zaid loves joining Hackathons and bringing projects to life, he enjoys going to meetups and connecting with others <3 in the Metaverse. He leads the Unity Berlin user group which brings together people from different backgrounds talking about technology. He Works at Hololux and drives Metaverse activities by supporting customers and clients on their journey in the Metaverse.
